

Stoichiometry...Mass to Mass Problems

1. How many grams of potassium chloride are produced if 25 g of potassium chlorate decompose?

2. a) How many grams of hydrogen are necessary to react completely with 50.0 g of nitrogen?

- b) How many grams of ammonia are produced in the above reaction?

3. a) How many grams of silver chloride are produced from 5.0 g of silver nitrate reacting with an excess of barium chloride?

- b) How much barium chloride is needed to completely use up the above silver nitrate?
