PERIODIC TABLE SCAVENGER HUNT

1. On the Periodic Table:

a) The rows are called _____

b) The columns are called _____

2. a) Locate the Alkali Metals, color them BLUE.

b) List 3 Properties of Alkali Metals:

1. _____

2. _____

3. _____

3. a) Locate the Alkaline Earth Metals, color them BROWN.

b) List 3 Properties of Alkaline Earth Metals:

1. _____

2. _____

3. _____

4. a) Locate the Halogens, color them YELLOW.

b) List 3 Properties of the Halogens:

1. _____

2. _____

3. _____

5. a) Locate the Noble Gases, color them PURPLE.

b) List 3 Properties of the Noble Gases:

1. _____

2. _____

3. _____

6. Draw the boundary between the Metals and Nonmetals in BLACK

a) The _____ are located to the LEFT of this boundary.

b) The _____ are located to the RIGHT of this boundary.

7. List 3 Properties of Metals:

1. _____

2. _____

3. _____

Name: _____

Date: _____

8. List 3 Properties of Nonmetals:

1. _____
2. _____
3. _____

9. What are the elements bordering the boundary between the Metals and Nonmetals called? Why are they unique?

10. Why is Hydrogen special?

11. a) What is a Proton?

b) What is a Neutron?

c) What is an Electron?

12. What does the Atomic Number tell us about an element?

13. What does the Atomic Mass tell us about an element?

14. The elements within a group have widely varying numbers of protons, neutrons and electrons. Why then do elements in a group tend to have similar chemical properties?
